

# High Performance LED Field Prompters

Tired of lugging heavy prompters and counterweights around in the field?  
 Hunting for missing pieces or dealing with transport damage?  
 Time consuming set up and tear-down?  
 And then having the talent complain about the prompter's readability?

Field crews produce a vital and growing share of broadcast production, and the need to shoot quality and time-effective footage outside the studio has become a major challenge. Retakes are the big headache for most shoots and mangled script delivery is almost always the culprit. The answer seems obvious - drag along the studio prompter. Unfortunately, its not that easy experienced crews know that studio prompters don't work well in the field - they're not bright enough to read, difficult to set up and too fragile to carry in the truck...

10P-F H50 Field Prompter

Tekskil has solved these problems with our newest, most portable and rugged outdoor prompter line: Tekskil's **Premium Series** Field Prompters. These prompters are the ultimate in readability - distances of 20 feet or more are no problem. And those prompter displays are integrated with our *signature* extruded aluminum frame rail and docking hardware for a truly portable product.

The camera hood is equipped with a framed 40/60 beamsplitter that provides wide angle viewing without annoying glare. 'No Tool' assembly provides both ruggedness and quick setup & teardown. This system is the ideal companion for the new breed of ultra compact Mini-DV Camcorders and lightweight field tripods

- **Rugged Construction:** Premium Series field prompters are available in 10", 15" & 17" displays
- **Great Performance:** Supercharged LCDs having amazing brightness and contrast - fully readable in direct sunlight
- **Reliability:** Active cooling and solid-state backlights for maximum display longevity
- **Fast Assembly:** No counterweights, aircraft aluminum components and tool free set-up ensure speedy shoots
- **Low Power Consumption:** LED lamps use less power and generate far less harmful heat
- **Easy Transport:** A single wheeled case stores all the pieces required for fuss-free toting or shipment
- **Accessories:** Add our Anton Bauer battery mount or tally light - if you need it, we'll provide it
- **Cost Effective:** Eliminate expensive re-shoots without breaking budgets - Tekskil quality and price is hard to beat
